Guidelines for students when applying for the DPP from the Science Faculty

*School of Psychology students please refer to page 2

Students must meet the following minimum entry requirements to be considered for the DPP

- Have completed 1 semester fulltime study; that is a minimum of 24 UoC; and
- Be in good standing

Ist Year Students

Acceptance into the DPP in S2 of the first year of study is determined by the following rules:

- A WAM>= 75 allows enrolment in a DPP course by overloading in S2; or
- A WAM>=50 and WAM<75 an offer to the DPP to commence study in the following Summer Term. WAMs will be reassessed to determine the following years pattern of study based on the rules for 2nd year or later students

2nd Year or later students

If WAM >=50 and < 65 accepted into DPP with the following conditions

- Can enrol in DPP courses over summer (only) if primary program load is 24 UoC in S1 and S2
- If primary program load is <24 UoC then students may take DPP courses in S1 and S2 (no overloading)

If WAM >= 65 accepted into the DPP with the following conditions

- May overload in S1 and S2.
- Where the WAM is >=65 and <=75 students will be monitored if they are overloading

If WAM >= 75 accepted into the DPP with no conditions

All students will be monitored each teaching period for

- academic standing and
- WAMs
- overloading
Guidelines for students when applying for the DPP from the School of Psychology

- **BPsych** – Students must have achieved a PSYC WAM ≥ 75 as well as an overall WAM ≥ 75.
- **BPsychSc** – Students must have achieved a PSYC WAM ≥ 65 as well as an overall WAM ≥ 65.

**1st Year students**

Acceptance into the DPP in S2 of the first year of study is determined by the following rules:

- An overall WAM ≥ 75 and a PSYC WAM ≥ 75 allow enrolment in a DPP course by overloading in S2 if the student wishes to do so.
- An overall WAM ≥ 65 and < 75 and a PSYC WAM ≥ 65 and < 75 would result in an offer to the DPP to commence study in the following Summer Term.

WAMs will be reassessed to determine the following years pattern of study based on the rules for 2nd year or later students.

**2nd Year or later students**

- If an overall WAM ≥ 75 and a PSYC WAM ≥ 75, students will be accepted into the DPP without conditions.
- If an overall WAM ≥ 65 and < 75 and a PSYC WAM ≥ 65 and < 75, students can overload if they choose to do so, but these students will be monitored to ensure overloading is not detrimental.
- If an overall WAM < 65 or a PSYC WAM < 65, students won’t be accepted into the DPP.

All students will be monitored each teaching period for academic standing, WAM and overloading.

Additionally, all BPsych and BPsychSc students are warned that they will not be permitted to overload while undertaking Honours. During the 4th Year, they can only attempt 24 UOC each semester (i.e., PSYC4053 only in S1 and PSYC4063 only in S2).
