This is a fantastic opportunity for a **Mechanical Engineer** to join a fast and dynamic organisation with a multi-skill base, which provides professional services being 2D and 3D Computer Aided Design (CAD), research and development, project management, engineering and technical consultancy for the Aerospace, Automotive and Building/Construction industries.

Reporting to the business owner (and based in Riverwood) SYIROPS is looking for a mechanical engineer who is eager to roll up their sleeves in learning all aspects of the engineering field. You must have a passion/desire for vehicles, in particular with the engineering discipline.

The successful candidate will be involved in but not limited to the following tasks:
- Completing vehicle inspection(s);
- Writing engineering reports;
- Conducting engineering analysis;
- Completing compliance investigation(s);
- 2D / 3D CAD drawings etc

To be successful for this role you must demonstrate the following skills and experiences:
- Understanding and interpretation of the Australian Design Rules;
- Mechanical experience;
- Strong verbal and written communication skills;
- Strong customer focus;
- Ability to multitask and work under pressure etc

The ideal candidate would be a mechanical or aerospace engineering graduate/undergraduate with a clean work ethic and a willingness to learn. Some training will be provided.

The successful candidate will be rewarded with a salary package commensurate with their experience.

The position is part-time (2 - 3 days per week) with the potential to become full-time.

If this is what you are looking for and you have what it takes we want to hear from you today!

Please send your CV to recruitment@syriops.com.au or for further details please call Theo on (02) 9533 6737.
