Would you like an internship for the New Year and complete your Professional Experience Placement course for the DPP Program?

UNSW IT Professional Placement

Don't miss out on this great opportunity to support the UNSW community and develop your skills!

UNSW IT Professional Placement involves excellent training in areas such as teamwork, customer service, IT skills and communication, with the opportunity to put this knowledge into practice through supporting the UNSW Community with their IT related issues.

Joining the program will also give you an opportunity to identify and work on innovation solutions to real UNSW IT problems and compete for the best ideas on how to solve it. Throughout the program you will receive mentoring and complete several workshops ranging from innovation and project management to presentation and communication skills.

The program is open to all students at UNSW, whatever your discipline. You don’t need to be an IT expert, just some basic IT knowledge is fine, we will teach you the rest. You must have at least one general education subject left of your degree. We are looking for enthusiastic students who are reliable, professional and have good people skills.

Selection Criteria:
* Must be available for between 10 and 20 hours of work per week, Monday to Friday, making up about 155 hours in total
* Ability to communicate clearly and creatively
* Excellent time management and organisational skills
* Strong attention to detail
* Graduated students are not eligible to apply

Please note this internship is 155 hours long, to be started in January and is unpaid.

The deadline for applications is the 16th January 2015.

Further information about the position can be obtained by contacting Anatoli Kovalev on 02 9385 3770 or email a.kovalev@unsw.edu.au
